

## Importing the New VPN Profile into the State of Indiana VPN Client

These instructions apply to all Cisco Systems VPN clients

To manually install the new VPN profile into the State of Indiana VPN client:

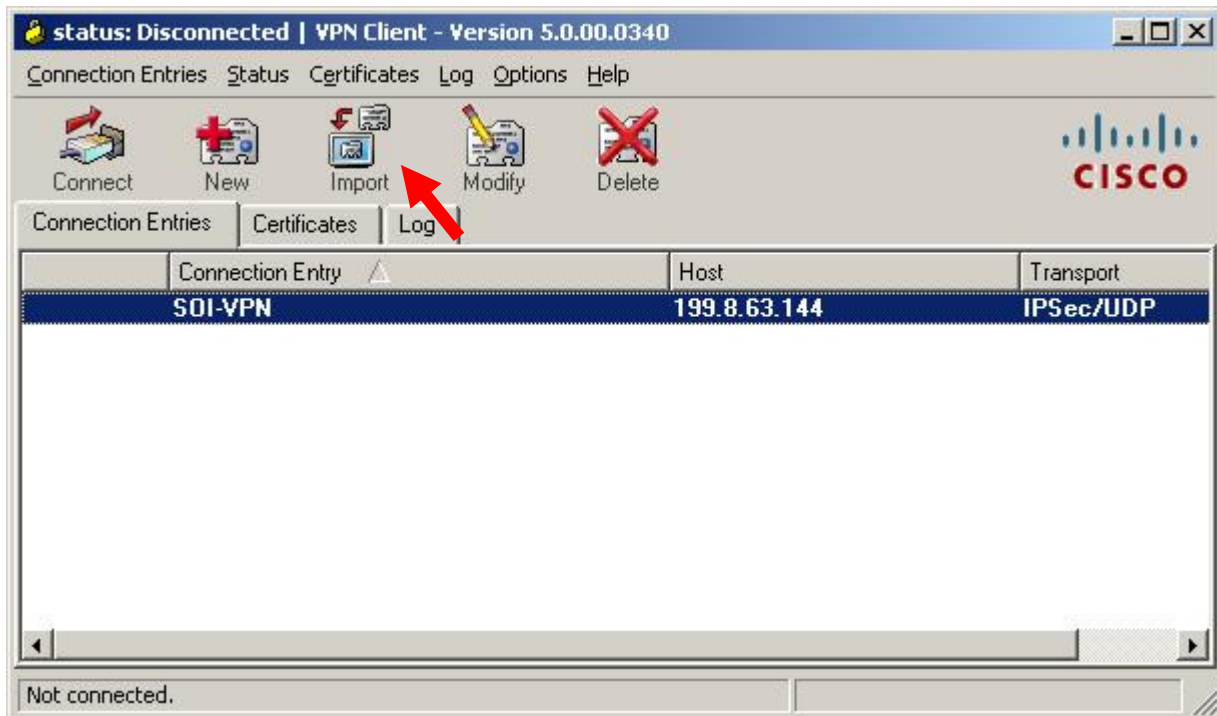

Right click the attached StateOfIndiana.pcf file in your email box and choose Save As

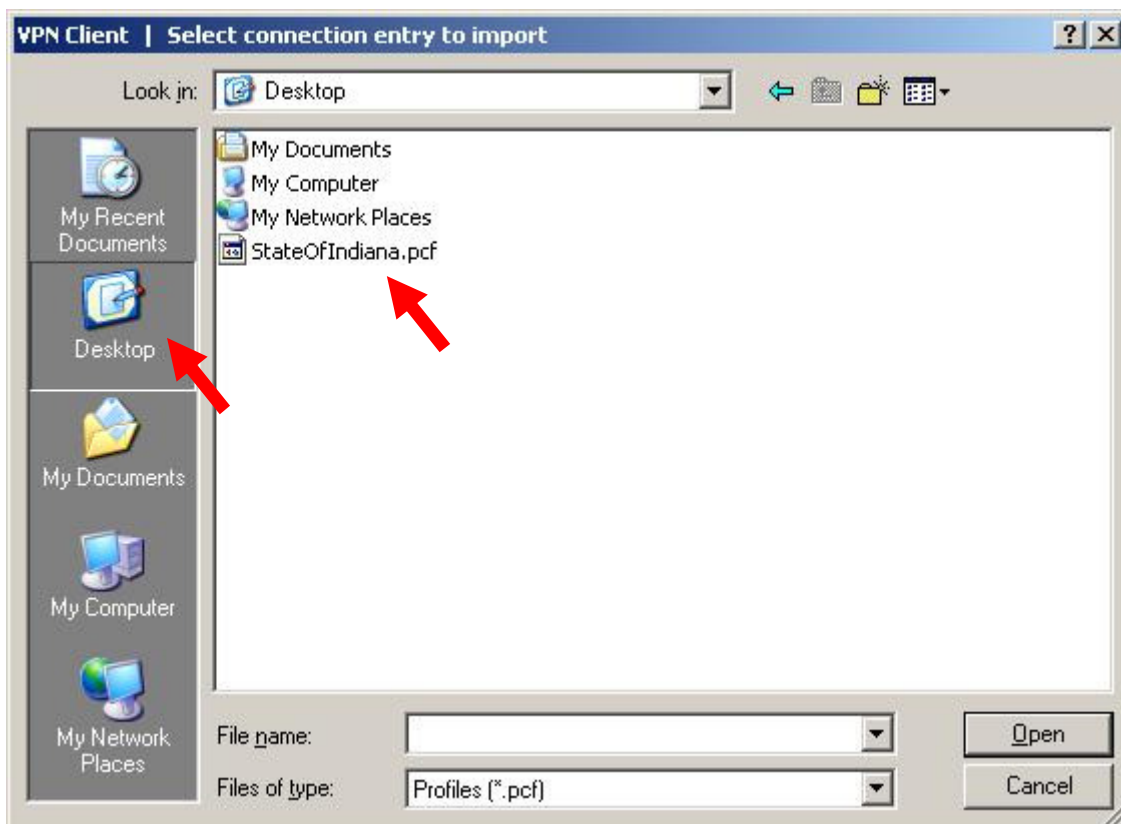

Click on Desktop and then click Save

Open your VPN Client and click on Import

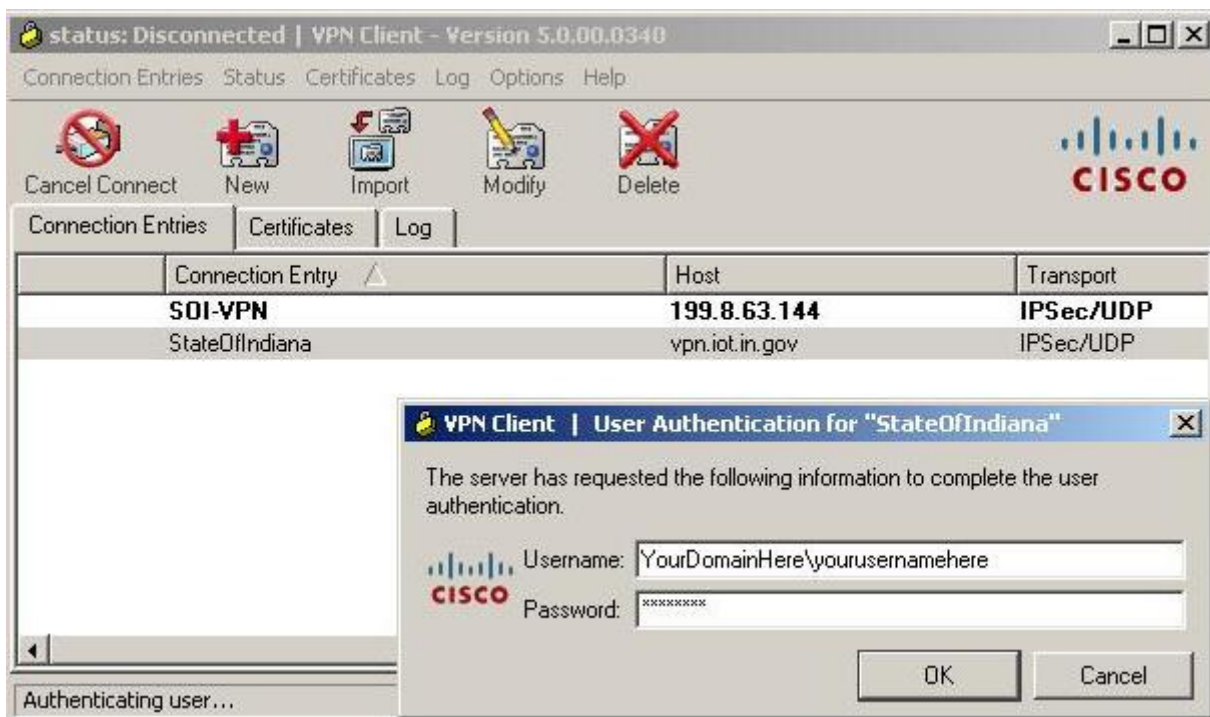

Click Desktop, double click StateOfIndiana.pcf.

A dialog will appear to indicate that you have successfully imported the profile. Click OK.

To connect, double click StateOfIndiana. Your login credentials are the same as your computer login on your office computer. The format is DOMAIN\Username where DOMAIN is your agency domain; for example, ISD-NT, ISD-SHARED, FSSA, etc. Your username is the same as your Windows username and your password is the same as your windows password.

Instructions continued on next page.

You may now delete StateOfIndiana.pcf from your desktop. See image on next page.

Congratulations! You have successfully imported the new VPN profile into your Cisco Systems VPN client.

If you have trouble connecting, please contact the IOT Helpdesk at 317-234-HELP (4357) or 1-800-382-1095
